APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the place of use of a portion of the waters of an underground source as heretofore granted under Permit 22586 is issued subject to the terms and conditions imposed in said Permit 22586 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a measuring device must be installed in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. If the well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water herein granted at any and all times.

The total combined duty of water under this permit and Permit 44313, 44314, 44315, 44316, 44317, 44318, 45218, and 45220 shall not exceed 10,136 acre-feet per annum.

This Permit is further issued subject to the condition that the power and energy generated by the beneficial use of this water is subject to recapture and use within the boundaries of the State of Nevada when the need arises.

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.67 cubic feet per second, but not to exceed 485.08 acre-feet annually.

Work must be prosecuted with reasonable diligence and be completed on or before May 13, 1982

Proof of completion of work shall be filed before May 13, 1982

Application of water to beneficial use shall be made on or before April 13, 1983

Proof of the application of water to beneficial use shall be filed on or before May 13, 1983

Map in support of proof of beneficial use shall be filed on or before

Completion of work filed OCT 19 1982

Proof of beneficial use filed APR 15 1985
